Senior iOS / Mobile Engineer | Swift · UIKit · Flutter | GenAI Applications

PROFESSIONAL SUMMARY

Senior iOS and Mobile Engineer with 10+ years of experience designing, building, testing, and shipping production mobile applications. Delivered customer-facing and enterprise apps in Dubai and India across e-commerce, payments/money transfer, retail, and location-based experiences.

Strong native iOS skills in Swift, Cocoa Touch / UIKit, Xcode, App Store releases, and REST API integration, with additional Flutter and React Native experience. Collaborates closely with design, product, QA, and backend teams. Building practical GenAI application skills (LLM APIs, RAG, agents, MCP) to integrate intelligent features into mobile and backend products.

CORE SKILLS

iOS / Mobile: Swift, Cocoa Touch / UIKit, Xcode, App Store Connect, Adaptive iPhone & iPad Layouts, JSON Parsing, Third-Party SDKs, Production Releases, Performance & Stability

Cross-Platform: Flutter, React Native, Xamarin

Architecture & Delivery: SDLC, Feature Ownership, Secure Coding, Application Testing, Production Monitoring

APIs & Tools: REST APIs, Git, Bitbucket, Unity / Vuforia (AR), Photon SDK

GenAI (building expertise): LLM APIs (OpenAI, Anthropic Claude, Google Gemini), RAG, Embeddings, Vector Search, AI Agents, Tool Use, MCP

Languages: English, Tamil, Hindi, Telugu

PROFESSIONAL EXPERIENCE

Senior iOS Developer — GMG, Dubai

August 2023 – Present

- Lead senior iOS development for production apps: Sun & Sand Sports, Nike Sports Wear, Under Armour ME, and iDecide GMG.
- Ship features end-to-end with Swift and Xcode alongside design, product, QA, and backend teams.
- Integrate REST APIs, third-party SDKs, and platform capabilities for e-commerce and enterprise App Store releases.
- Improve quality, performance, and stability; support production releases and ongoing operations.

iOS Developer — Swan, Dubai

July 2021 – August 2023

- Built and maintained core features for the Swan iOS e-commerce app (grocery delivery and home services) using Swift, Cocoa Touch, and Xcode.
- Shipped App Store releases and managed a secure codebase with Git / Bitbucket.
- Partnered with designers on UI, graphics, and animations; applied security best practices for production.
- Maintained high stability with an average of 98.5%–99.5% crash-free users over one year.

Mobile Developer — Aamro Freight and Shipping, Dubai

February 2021 – July 2021

- Helped establish mobile development infrastructure for a greenfield initiative.
- Designed and developed mobile features for freight and shipping workflows; built REST APIs for mobile clients.

iOS Developer — Precise Communication, Dubai

January 2018 – February 2021

- Designed, developed, tested, and deployed multiple customer-facing iOS apps to the App Store.
- Integrated indoor navigation with Bluetooth beacons for mall and venue experiences (including Al Araiimi Boulevard).
- Delivered Flutter, React Native, and Unity work where multi-platform delivery was required.
- Built AR experiences with Vuforia / Unity (Quranic Park smart guide) and multiplayer features with Photon SDK.

Programmer Analyst — Cognizant Technology Solutions, Chennai

June 2015 – November 2017

- Completed certified training in C, SQL, HTML & CSS, .NET, and iOS foundations.
- Contributed to a banking hybrid app on Xamarin (adaptive iPhone/iPad UI, REST APIs, JSON parsing).
- Supported a native iOS book-marketing app with production fixes, migrations, and enhancements.

SELECTED PROJECTS

Sun & Sand Sports, Nike Sports Wear, Under Armour ME — GMG

Senior iOS development on flagship Middle East sportswear e-commerce apps — product discovery, checkout, and App Store releases.

Stack: Swift, UIKit, Xcode, REST APIs · Sun & Sand Sports · Nike · Under Armour ME

iDecide GMG — Approvals Workflow

Enterprise productivity app for centralized approval requests, review/decision actions, status tracking, and role-based access.

Stack: Swift, UIKit, Xcode · App Store

Swan — Grocery Delivery & Home Services

Production e-commerce iOS app for grocery and on-demand home services in the UAE; sustained 98.5%–99.5% crash-free users over one year.

Stack: Swift, Cocoa Touch, REST APIs, App Store · App Store

Emirates India Int'l Exchange — Money Transfer

Production iOS app for cross-border money transfer from the UAE.

Stack: Native iOS, App Store · App Store

Al Araiimi Boulevard & Quranic Park AR

Mall navigation with Bluetooth beacons and interactive map; AR smart-guide park experience with Unity / Vuforia.

Stack: iOS, Beacons, Indoor Navigation, Unity, Vuforia

PDF Analyzer — Personal GenAI / RAG

Personal SwiftUI + FastAPI RAG product: upload PDFs, stream grounded answers with citations (not employer production AI).

Stack: SwiftUI, FastAPI, pgvector, OpenAI / Gemini, SSE · iOS · API

EDUCATION

Bachelor of Engineering in Computer Science

Sri Venkateshwara College of Engineering, Chennai · May 2011 – May 2015 · CGPA 7.0
